For the purposes of the above paragraph, where a school based apprentice is a full time school student, the time spent in off-the-job training for which the apprentice is paid is deemed to be 25 per cent of the actual hours each week worked on-the-job. PART III – CLASSIFICATION AND RELATED MATTERS

1. CLASSIFICATION DESCRIPTORS

(a) Introduction

(i) Purpose:

The purpose of classification descriptors is to categorise the wide range of occupations and different types of work across the Tasmanian State Service into distinct work value levels, to which salaries are aligned.

The classification standards are broad and describe the core features of work at each band from seven perspectives called job components. The classification descriptors determine the appropriate classification for the duties assigned to employees.

(ii) “Best Fit”:

The job components have equal weight or effect and no description within a component has more importance than another. Some descriptors, however, are more relevant in describing different types of work than others, and therefore will have more influence in classifying that work. Naturally, not each and every descriptor applies to any individual job. These descriptors are appropriately used when particular job components and the overall theme or “feel” of a particular band provides the “best fit” to an employee’s duties.

In using the descriptors it is important to consider particular organisational arrangements, such as the reporting relationships above and below specifically assigned duties.

(iii) Similarity of Descriptors:

The descriptors of some job components at different bands are similar because of shared requirements which mean the key differences in different work value levels lie in other features of the work.

(b) Qualifications and Essential Requirements

(i) Qualifications:

(1) General Stream

The employer may determine that a qualification is essential according to the nature of the work to be undertaken. The qualification may be provided by a university, a vocational education organisation or a registered and accredited training provider.

(2) Professional Stream

The employer is to determine the appropriate degree of at least three years duration, or equivalent, as provided by a university relevant to the professional duties to be undertaken is required.

(ii) Essential Requirements:

The employer may determine that certain requirements need to be met according to the nature of the work to be undertaken.

(c) Features

The following are the key features of the Classification Model:

- (i) The General Stream has ten bands with an Advancement Assessment Point in Bands 1, 4, 6, 7 and 8 which provide for two ranges within those bands.
- (ii) The Professional Stream has six bands, with an Advancement Assessment Point in Bands 1, 3 and 4. Salary progression from Band 1 to Band 2 occurs without promotion.
- (iii) Work is described in seven job components for each band.

The components are:

(1) Focus:

The primary purpose of work at each band, including the range of objectives and activities.

(2) Context and Framework:

The operating environment and decision-making framework for work at each band.

(3) Expertise:

The qualifications, knowledge and experience required for work at a particular band.

(4) Interpersonal Skills:

Oral and written communication skills and the ability to lead people and manage relationships.

(5) Judgment:

Critical thinking, problem solving and decision-making requirements of each band.

(6) Influence of Outcomes:

The influence and effect that work of a satisfactory standard would have on the outcomes required of each band.

(7) Responsibility for Outcomes:

The principal responsibilities of work at each band.

(iv) The General Stream descriptors define work in four broad levels according to the focus of the work and the framework in which it is performed. These are as follows:

(1) Bands 1, 2 and 3

Work involves the application of practices, methods and standards according to existing guidelines, systems and processes.

(2) Bands 4, 5 and 6

Work involves the maintenance and modification of guidelines, systems and processes according to a defined policy and regulatory operating environment. The operating environment is Agency-specific in terms of organisational design, planning, structures and interpretation of government objectives.

(3) Bands 7 and 8

Work involves the interpretation and modification of policy and regulatory settings according to operational requirements (internal – how we work) and service delivery (external - what we do) demands. A broader whole-of-Agency and/or whole-of-government perspective.

(4) Bands 9 and 10

Work involves significant new strategic, policy and decision-making frameworks that apply to specific areas of specialisation of extremely high sensitivity or wide strategic importance, or which have far reaching implications for government or beyond and whole-of-government and whole-of-community and whole-of-discipline perspective.

2. REFERENCE FRAMEWORK

The following definitions have been adopted to complement the classification descriptors. They reflect the hierarchical nature of the work undertaken in complex State Service organisations. The work performed by individuals in these organisations may range across one or more aspects of this reference framework. Invariably, however, the principal objective of the work of an individual employee aligns more closely with one aspect than another.

(a) Task

A defined piece of work which forms part of a unit of activity.

(b) Discipline

A branch of instruction. For example: botany, accountancy, journalism, information science, underwater diving, carpentry.

(c) Field

An area or sphere of operation or activities. For example: Occupational Health and Safety, Training and Development, Expenditure Control.

(d) Activities

Work and actions of related fields that typically combine within a functional (Branch) or program area.

(e) Program

A program may stand alone or located within a functional unit. Typically involves related disciplines within a function of an Agency or related fields that range across functional areas. May have a defined life span and/or includes a project.

(f) Function

A related and aligned area of activities combined to form a unit (typically a Branch) within the structure of a Division.

(g) Policy

Create, design, develop, model, trial, test, modify, adopt or implement a course of action.

(h) Strategy

Policy implementation – what, how, by whom, when and where.

3. SUMMARY OF DIFFERENCES BETWEEN GENERAL STREAM BANDS

(a) Band 1

Work involves routine tasks requiring the application of precise practices according to existing processes with strictly limited scope and discretion.

(b) Difference Between Band 1 and Band 2

Band 2 undertakes multiple and diverse tasks which require some independent judgement in how they are performed. Performance is assessed by the satisfactory completion of tasks consistent with an increasing degree of independent management of work.

(c) Difference Between Band 2 and Band 3

Band 3 tasks are complex and involve intricate and unrelated techniques that may require qualified and specialised skills. The exercise of independent judgement is integral to the work and non-standard requirements require considerable creativity and initiative. Assistance is provided to a supervisor.

(d) Difference Between Band 3 and Band 4

Band 4 work is directed at coordinating and integrating the operational functions to be undertaken, or towards understanding and interpreting the decision-making framework within which the work activity occurs, or aspects of both, depending upon range of the activities of the work area.

(e) Difference Between Band 4 and Band 5

Band 5 work is directed at coordinating and integrating the operational procedures to be undertaken, that is, the systems and processes for program and service delivery within which a multitude of tasks are performed. High level specialised skill and expertise in a particular discipline or field of activity.

(f) Difference Between Band 5 and Band 6

Band 6 work applies the decision-making framework (policies, rules and regulations) in support of program or service delivery of a defined field of activity, which may involve more than one discipline. Considerable autonomy of approach in delivering outcomes and the advice and recommendations provided are regarded as definitive for that activity.

(g) Difference Between Band 6 and Band 7

Band 7 work leads a complex activity or program unit requiring the development and/or determination of the operational methodology according to the decision-making framework and service delivery requirements.

(h) Difference Between Band 7 and Band 8

Band 8 work leads a complex functional or program unit and develops program strategies, policies and operational approach. The outcomes of the functional or program activities have a direct and significant effect on the achievement of organisational objectives.

(i) Difference Between Band 8 and Band 9

Band 9 work leads a multi-functional or multi-disciplinary program where operational policies and precedents are not definitive and outcomes are of critical strategic importance across Agencies or at government level.

(j) Difference Between Band 9 and Band 10

Band 10 work leads a multi-functional or multi-disciplinary program which may influence government policy and involve a high degree of sensitivity or risk and where outcomes can influence national debate in the field of expertise.

Bands 9 and 10 cater for work requiring high level specialist expertise, as demonstrated by associated attraction and retention issues, in excess of Band 8 but which does not have the management and/or corporate focus required of Senior Executive Service work. These duties and responsibilities will continue to be required to satisfy Senior Executive Service criteria and work value considerations.

The difference between Bands 9 and 10 will also often result from market forces, the impact on government, the significance of outcomes and reporting arrangements.

6. STATE SERVICE ACCUMULATED LEAVE SCHEME

An employee is to be entitled to participate in the State Service Accumulated Leave Scheme under the terms and conditions specified in this clause. The scheme is to be known as the State Service Accumulated Leave Scheme (SSALS).

(a) Summary of Scheme

The SSALS allows the employer to approve Plans under which participating employees will, by taking a reduction in normal salary for a given period, become entitled at the end of that period to a pre-determined amount of special ("accumulated") leave during which they will be paid salary at the same reduced rate.

(b) Interpretation

The conditions and administrative arrangements in the SSALS are to be administered in conjunction with the *State Service Act 2000* and the *State Service Regulations 2001*.

'Accumulated leave' means the period of time that is accumulated under the Plan as leave during a work period.

'Leave period' means the period specified in a Plan when a participating employee is absent from work on accumulated leave.

'Normal salary' means the salary that would be paid to a participating employee if that person was not participating in a Plan and includes salary expressed as an annual rate, fortnightly rate, weekly rate, daily rate or hourly rate. It includes all allowances that are paid as an annual rate, fortnightly rate, weekly rate, daily rate or hourly rate but not overtime payments and penalty rates unless they are paid as a component of an annualised rate.

'Operational requirements' means the need to ensure that the Agency is to be operated as effectively, efficiently and economically as possible.

'Participating employee' means an employee whose election to participate in a Plan has been approved by the employer.

'Plan' means an arrangement in the SSALS consisting of a specified work period followed by a specified leave period.

'Work period' means the period specified in a Plan when an employee is at work.

(c) Plans

The SSALS consists of arrangements known as Plans. For example:

<u>Work Period</u>	<u>Percentage of Normal Salary payable during the period of the Plan</u>	<u>Leave Period</u>
Four Years	80% "The Four over Five Year Plan"	One Year
Three Years	75% "The Three over Four Year Plan"	One Year
Twenty Months	83.3% "The 20 over 24 Month Plan"	Four Months
Eighteen Months	75% "The 18 over 24 Month Plan"	Six Months

Forty Eight Weeks	92.3% "The 48 over 52 Week Plan"	Four Weeks
Forty Weeks	76.9% "The 40 over 52 Week Plan"	Twelve Weeks
(Other Plan) "A"	A 100 $A+B \times 1 = \dots\%$ (to one decimal place)	(Other Plan) "B"
..... Years	Year Year
..... Months	"The over..... Month Plan"
..... Weeks	Week	Months
	
		Weeks

(d) Application of SSALS

- (i) The employer, after considering the operational requirements of the Agency, determines whether any Plan or Plans are to be available to employees in the Agency.
- (ii) The employer may make any Plan or Plans available to employees in an Agency or an employee or employees can request the employer that a Plan be made available to them.
- (i) A Plan may be made available to any permanent employee (full or part-time). A Plan may be made available to any fixed-term employee the term of whose contract of employment is sufficient to cover the period of the Plan.
- (iv) The Employer determines:
 - (1) whether one or more Plans will be made available to all or only some of the employees;
 - (2) whether particular Plans will be made available to particular categories of employees;
 - (3) whether quotas will apply to the number of employees who may participate in a Plan, and whether quotas will apply to any category of employees;
 - (4) the selection arrangements where quotas are imposed; and
 - (5) the commencement date of any Plan.
- (v) Where an employee participating in a Plan is promoted, transferred, seconded or otherwise moved either into another Agency or within PAHSMA the Employer in which the employee is thereafter employed will, after consultation with the employee and taking into account the operational requirements of the Agency, determine whether or not the employee is able to continue on their Plan.
- (vi) If the Employer determines under sub-clause (d)(v) that the employee is not able to continue on their Plan, the Employer may forthwith terminate the

employee's Plan whereupon the employee becomes entitled to a period of accumulated leave which bears the same proportion to the total leave period of the Plan as the period worked under the Plan bears to the total work period, to be remunerated at the percentage of normal salary payable during the period of the Plan. The employee may apply to the Employer at any time to take that leave, and it is to be granted as soon as can be, consistent with the operational requirements of the Agency.

(e) How to Participate in SSALS

- (i) Where the Employer offers a Plan to an employee the employee may elect to participate in the Plan by lodging an election in writing with the Employer in any form which the Employer may approve.
- (ii) The Employer may accept or reject an election to participate made in accordance with sub-clause (e)(i).
- (iii) The Employer will notify the employee in writing if the employee's election has been disapproved.
- (iv) Where the employee's election is approved, the Employer will endorse approval on the form of election which was lodged by the employee, and will provide the employee with a copy of that endorsed form.
- (v) An employee's election under sub-clause (e)(i) does not entitle the employee to participate in a Plan until it is approved by the Employer in accordance with sub-clause (e)(iv).
- (vi) A participating employee wishing to withdraw from a Plan must apply in writing to their Employer who may refuse the application if he or she considers such refusal to be reasonably required to meet the operational requirements of the Agency.

(f) Conditions and Administrative Arrangements

- (i) Work Period to be completed prior to Period of Leave

The work period specified in a Plan must be completed before a participating employee can commence the leave period specified in that Plan.

- (ii) Suspension of Plan

The Employer on the application of the employee or otherwise can in writing suspend a Plan. In deciding to suspend a Plan, either on application of the employee or otherwise, the Employer will take into account the employee's circumstances and response to any proposal to suspend, and what is reasonably required to meet the operational requirements PAHSMA. Suspension may occur either during the work period or the leave period of the Plan, and will be for such period as may be specified by the Employer in the instrument by which the Plan is suspended. Where the total period of the Plan comprises five years or more (for example a four over five Plan) the Plan may only be suspended

with the agreement of the employee. An employee is entitled to compensation for reasonable expenses incurred by the employee, but not otherwise recoverable, as a result of the Employer's decision to suspend the Plan otherwise than on the application of the employee.

(iii) Accumulated Leave

Accumulated leave is to be managed in accordance with any legislative requirements and with any guidelines which may be issued by the Employer which are not inconsistent with the SSALS. A record is to be kept to show at all times the exact amount of the accumulated leave for each participating employee. On withdrawal from a Plan, the accumulated leave is to be taken immediately or either wholly or in part at a later time approved by the Employer, at the percentage of normal salary payable during the period of the Plan. It is not to be paid out unless the participating employee's employment ends. Where a participating employee moves to another Agency the exact amount of the accumulated leave and salary for that employee is to be transferred to that Agency not later than twenty working days after the date of movement.

(iv) Payment during the Leave Period

During the leave period the participating employee is to receive salary at the percentage of normal salary payable during the period of the Plan. Normal employment conditions will apply as if the employee was on recreation leave. An employee may, on request, receive a lump sum payment in either one or two installments.

(v) Salary Progression

Salary Progression will continue throughout the period of a Plan.

(vi) Superannuation

Superannuation contributions are to be paid throughout the period of a Plan and in accordance with the rate of salary applicable under the Plan. It is the responsibility of a participating employee to obtain any personal superannuation advice from the Retirement Benefits Fund Board or from the employee's own adviser(s). A participating employee's superannuation contributions (where the employee is a contributor to a superannuation scheme other than Retirement Benefits Fund) and entitlements depend upon the employment arrangements for that employee. An Agency's superannuation responsibilities and financial obligations for participating employees depend upon the nature of the employment arrangements for each participating employee.

(vii) Other Compulsory Deductions from Pay

Compulsory deductions from pay will be made throughout the period of a Plan. ('Compulsory deductions' include garnishees, salary attachments, court orders, etc.)

(viii) Voluntary Deductions from Pay

Voluntary deductions from pay (including life insurance premiums, private health fund premiums, union membership fees etc) made by PAHSMA at the request of an employee is to continue throughout the period of the Plan.

(ix) Administrative Records

PAHSMA must maintain proper separate records of accruals based upon that Plan.

(x) Recreation Leave

Recreation leave entitlements accrue throughout the period of the Plan and will be taken otherwise than during the leave period of a Plan at the percentage of normal salary payable during the period of the Plan. Whenever taken, entitlements will be deducted from credits in the normal manner.

(xi) Personal Leave

Personal leave entitlements taken during the period of a Plan will be taken at the rate of salary applicable under the Plan and will be deducted from credits in the normal manner.

Personal leave entitlements will accrue throughout the period of the Plan and access to those entitlements will be in accordance with the Tasmanian State Service Regulations and any relevant Award provisions.

(xii) Parental Leave

Where a participating employee is absent on parental leave, either within the work period of a Plan or during the leave period, the employee's participation in the Plan is not affected by that parental leave. Salary arrangements established by the Plan apply during parental leave.

(xiii) Other Leave

Payment of all other leave entitlements (including leave on account of special circumstances, bereavement leave, leave of absence with or without pay, Defence Force leave, leave for jury service, leave in lieu of overtime, etc) taken during the currency of a Plan will be at the rate of salary applicable under the Plan. Such entitlements will when taken be deducted from credits in the normal manner, and are to be taken otherwise than during the leave period of a Plan.

(xiv) Long Service Leave

Long service leave is provided for in the Long Service Leave (State Employees) Act 1994. Long service leave entitlements accrue throughout the work period of a Plan. The leave period is not to be regarded as a period of employment in calculating length of employment for the purposes of the Act, but is not to be

taken as interrupting the continuous employment of a participating employee. Long service leave entitlements are to be taken otherwise than during the leave period of a Plan. Where a participating employee is absent on long service leave in the work period of a Plan the employee's participation in the Plan is not postponed for the duration of that long service leave, and salary is to be paid at the rate of salary applicable under the Plan.

(xv) State Service Holidays (Public Holidays)

The leave period of a Plan is to be extended by the number of State Service holidays (public holidays) falling within it.

(xvi) Workers Compensation

A Plan is to be suspended during any period of incapacity for which the worker is entitled to compensation under the provisions of the Workers Rehabilitation and Compensation Act 1988, effective from the day before the commencement of the period of incapacity and terminating upon the last day of the incapacity. Upon suspension of a Plan in accordance with this provision, the employee reverts to normal salary entitlement.

(xvii) Cessation of Employment

PART X – CONSULTATION AND CHANGE: GRIEVANCE AND DISPUTE RESOLUTION

1. CONSULTATION AND CHANGE

- (a) Where an Agency proposes changes in work arrangements and practices that are likely to impact employees, the Agency is to consult with the employees who may be affected by the proposed changes and the relevant union/s prior to a final decision being made to implement that change.
- (b) Consultation is undertaken because all parties acknowledge that by discussing proposed changes with the employees who may be affected by the change and giving consideration to their views and feedback, a better informed decision occurs.

Consultation is not joint decision making or a barrier to the prerogative of management to make decisions; nor is it simply advice on what is about to happen. It is a process that informs affected employees about proposed change and provides them with a genuine opportunity to influence the outcome before a final decision is made.

- (c) While employees should be consulted on all change that is likely to affect them the extent of any consultation process should be based on the materiality or impact of the change and the number of employees likely to be impacted by the change.

Employees and the relevant unions should be provided with access to relevant information about a change proposal, be given a reasonable opportunity to provide feedback and be provided with a response to any reasonable alternatives put forward.

- (d) Consultation should involve four clear stages:
 - (i) Formulation of ideas or proposals;
 - (ii) Consultation on a proposal;
 - (iii) Considering responses and providing feedback; and
 - (iv) Making a final decision and implementing it.
- (e) Agencies are to maintain a register of changes subject to this process. The employer will maintain a register of major changes subject to this process. Employees and relevant unions may request access to these registers.
- (f) Subject to sub-clauses (g) & (h), in the event that outsourcing of a service or services supplied by an Agency is under consideration by that Agency, consultation is to occur in line with this clause. This will include identification of the actual service, program and functions to be outsourced, the services, programs and functions that are to remain, reasons and impact on employees.
- (g) Where the outsourcing of an in-house service is being considered by an Agency and that service will continue to be provided within the State Service, but by an external organisation, information will be provided on the following matters as a minimum:

- (i) The current cost of the service;
 - (ii) Impact on current employment arrangements, including salaries, job security and reasons for outsourcing;
 - (iii) Future costs, where available, including contract management costs on an outsourced service, program or function;
 - (iv) Description of the service, program or functions to be outsourced and those that are to remain;
 - (v) Service quality requirements;
 - (vi) Risk assessment should the outsourced provider cease to continue the service
- (h) Prior to the implementation of a decision to tender Agencies will provide the opportunity for the employees and /or their union to submit a case to meet the requirements for undertaking the service, program or function.
