- (1) Clause 23 - Implementation of 38-Hour Week provided, in paragraphs (a)(iii) and (iv) that in implementing a 38-hour week the ordinary hours of an employee may be arranged so that he is entitled to a day off, on a fixed day or rostered day basis, during each work cycle. It is in these circumstances that the averaging system would apply.
- (2) If the 38-hour week is to be implemented so as to give an employee a day off in each work cycle this would be achieved if, during a work cycle of 28 consecutive days (that is, over four consecutive weeks) the employee's ordinary hours were arranged on the basis that for three of the four weeks he worked 40 ordinary hours each week and in the fourth week he worked 32 ordinary hours. That is, he would work for 8 ordinary hours each day, Monday to Friday inclusive for 3 weeks and 8 ordinary hours on four week days only in the fourth week - a total of 19 days during the work cycle.
- (3) In such a case the averaging system applies. The weekly wage rate for ordinary hours of work applicable to the employee shall be the average weekly wage rates set out for the employee classification in Clause 8 of this award. This wage shall be paid each week even though more or less than 38 ordinary hours are worked that week.

In effect, under the averaging system, the employee accrues a 'credit' each day he works actual ordinary hours in excess of the daily average which would otherwise be 7 hours and 36 minutes. This 'credit' is carried forward so that in the week of the cycle that he works on only four days, his actual pay would be for an average of 38 ordinary hours even though, that week, he works a total of 32 ordinary hours.

Consequently, for each day an employee works 8 ordinary hours he accrues ix`credit' of 24 minutes (0.4 hours). The maximum `credit' the employee may accrue under this system is 0.4 hours on 19 days; that is, a total of 7 hours 36 minutes.

- (4) As provided in subclause (b) of this clause, an employee will not accrue a `credit' for each day he is absent from duty other than on annual leave, long service leave, public holidays, paid sick

leave, workers' compensation, bereavement leave, jury service or any paid absence authorised by the employer. When an employee is absent from duty because of annual leave, long service leave, public holidays, paid sick leave, workers' compensation, bereavement leave or jury service, his entitlement is determined in accordance with the appropriate award provision dealing with such entitlements.

(b) Absences from Duty

- (1) An employee whose ordinary hours are arranged in accordance with Clause 23 paragraphs (a)(iii) or (iv) of this award and who is paid wages in accordance with subclause (a) hereof and is absent from duty (other than on annual leave, long service leave, public holidays, paid sick leave, workers' compensation, bereavement leave, jury service or any paid absence authorised by the employer) shall, for each day he is so absent, lose average pay for that day calculated by dividing his average weekly rate by 5.
- (2) An employee who is so absent from duty for part of a day shall lose average pay for each hour or part thereof he is absent at an hourly rate calculated by dividing his average daily pay by 8.
- (3) Provided when such an employee is absent from duty for a whole day he will not accrue a `credit' because he would not have worked ordinary hours that day in excess of 7 hours 36 minutes for which he would otherwise have been paid. Consequently, during the week of the work cycle he is to work less than 38 ordinary hours he will not be entitled to average pay for that week. In that week, the average pay will be reduced by the amount of the `credit' he does not accrue for each whole day during the work cycle he is absent.

The amount by which an employee's average weekly pay will be reduced when he is absent from duty (other than on annual leave, long service leave, public holidays, paid sick leave, workers' compensation, bereavement leave, jury service or any paid absence authorised by the employer) is to be calculated as follows:-

$$\begin{array}{rcl} \text{Total of 'credits' not} & & \\ \text{accrued during cycle} & \times & \frac{\text{Average Weekly Pay}}{38} \end{array}$$

Examples

(An employee's ordinary hours are arranged so that he works 8 ordinary hours on five days of each week for 3 weeks and 8 ordinary hours on four days of the fourth week).
